

YAKS

*Prestige Kitchen*

Yaks thought is to provide an experience from kitchen space for their customers more than a cooking space. We seek to capture a lasting memory in the minds of our audience. We want the clients to remember the pleasant experience of communicating with us. In this way, Yaks attempts to improve the architectural design of the kitchen through deep and purposeful communication with architects and interior designers and creating synergies to design a comfortable, bright space with a beautiful view and air conditioning and easy access. By focusing on the functions, we care about details and eliminate what is extra, so that the product would be simple, minimal, and has the best outcome. Our concern is the quality of the residents' experience in interacting with our product. We have gone beyond designing and manufacturing the product. We intend to provide an experience to present a new lifestyle. We want to change the current beliefs about the kitchen industry. This industry should be focused on helping to create a better life for the home residents.

تفکر یاکس ارائه یک تجربه از فضای آشپزخانه برای مشتریان، فراتر از یک فضای طبخ غذا است. ما به دنبال ثبت خاطره‌ای مانا در ذهن مخاطب خود هستیم. در این راه یاکس تلاش می‌کند از طریق ارتباطات عمیق و هدفمند با معماران و طراحان، با ایجاد هم‌افزایی به بهبود طراحی معماری فضای آشپزخانه کمک کند تا فضایی راحت، پرنور، با چشم‌اندازی زیبا و هوایی مطبوع و دسترسی‌های آسان طراحی شود. ما با تمرکز بر کاربری، به جزئیات اهمیت می‌دهیم و آنچه اضافی است را حذف می‌کنیم تا محصول ساده، مینیمال و دارای بهترین کاربری باشد. دغدغه‌ی ما، کیفیت تجربه‌ی اهل خانه در تعامل با محصول ماست. از طراحی و ساخت محصول پایمان را فراتر گذاشته‌ایم؛ به دنبال ارائه یک تجربه در جهت رسیدن به یک سبک زندگی نو هستیم. تلاش می‌کنیم تا باورها را نسبت به صنعت آشپزخانه تغییر دهیم. این صنعت باید بر محور کمک به ایجاد زندگی مطلوب برای اهل خانه باشد.

“Understanding the person or people living in a home is a far greater need in design than focusing purely on the aesthetics. The home is designed around emotional needs.”

— Amanda Talbot

“Simplicity is the ultimate sophistication. When once you have tasted flight, you will forever walk the earth with your eyes turned skyward, for there you have been, and there you will always long to return. Learning never exhausts the mind. Art is never finished, only abandoned. The human foot is a masterpiece of engineering and a work of art. It had long since come to my attention that people of accomplishment rarely sat back and let things happen to them. They went out and happened to things. I have been impressed with the urgency of doing. Knowing is not enough; we must apply. Being willing is not enough; we must do. As a well-spent day brings happy sleep, so a life well spent brings happy death. Water is the driving force of all nature.”

— Leonardo da Vinci
